

William Liu

<https://renaissancedog.github.io> | jiyangliu729@gmail.com | San Antonio, Texas

Motivated high school junior with strong problem-solving ability, leadership experience, and a passion for STEM. Enjoys solving challenging problems, building creative projects, exploring advanced maths and sciences, and promoting STEM within the community. Aspiring to become a scientist or engineer to help create a better shared future.

Education

Ronald Reagan High School - 11th grade, expected graduation May 2027

- **GPA/Test Scores:** 99.1/100, unweighted GPA; 107.2/100 weighted GPA; 1600, SAT; 6, AIME; 108, AMC 12
- **Relevant Coursework:** AP Calculus BC, AP Physics C: Mechanics, AP Chemistry, AP Statistics

Experience

San Antonio Math Group

Co-Founder (August 2024 - Present)

- Founded and leading a 15-member student-run math community focused on exploring advanced math, such as algebra, combinatorics, number theory, and advanced geometry
- Organized teams and coached members for math contests such as AMC, AIME, SMT, CMIMC, TAMU Math Contest, and Mathcounts
- Mentored several younger members; helped them develop advanced problem-solving skills and win competition awards

Independent Developer

August 2023 - Present

- Developed several projects to explore programming, mathematics, hardware systems, and data analysis
- Built a basketball data analysis program with Python and SQLite to analyze video game statistics and project player performance with predictive modeling
- Developed several interactive web applets, including a Valentine's Day website and a bell schedule utility
- Designed and prototyped a functional alarm clock using Arduino, breadboard circuitry, and embedded C++
- Created a customized personal website with Svelte to showcase portfolio of projects and technical skills

Reagan Mu Alpha Theta

Committee Member (April 2025 - Present), Inducted Member (October 2023 - Present)

- Organized and directed math contests, study events, and games for school chapter of national math honor society, reaching over 50 students
- Developing Python-based administrative automation tools for chapter operations

Reagan Orchestra

Librarian (May 2025 - Present), Violinist (August 2023 - Present)

- Selected for varsity Chamber Orchestra and All-Region Orchestra
- Managed copying, inventorying, processing, and distributing music as a Librarian

Skills

- **Technical:** Strong math/programming skills; Knowledge of AI/ML concepts; AutoCAD Certified User
- **Programming Languages:** Python, Java, JavaScript, HTML/CSS, SQLite
- **Programming Frameworks:** PyTorch, NumPy, Pandas, matplotlib, seaborn, Svelte, TailwindCSS
- **Other Interests:** Playing violin, running, swimming, reading, watching football, collecting maps

Awards

- American Invitational Mathematics Examination (AIME) Qualifier (2024, 2025, 2026): Only qualifier from school, first freshman qualifier in school history
- American Mathematics Competitions (AMC) 1st Place, Reagan High School (2023, 2024, 2025)
- USA Computing Olympiad (USACO) Silver Division
- Student Volunteer Service Award - Gold Level (2025, 2026)
- Texas State Solo & Ensemble Competition qualifier (2024, 2025, 2026)
